

Financial Need Answered (July 2011)

My name is **Monique** and I work as a personal trainer. As you know the economy is getting worse so one of the first things people cut back on to save money is things like personal trainers.

At this time I was helping in a prayer team at Petersham Assembly of God. After we had finished praying for someone else I just said to the team that my financial situation was desperate and I needed a miracle. The prayer team suggested we stay and pray immediately for my financial need.

A few hours later I was checking my email and found an email from a former client. She said she was back in town and wanted to start training sessions again. It was a good feeling. After which I had a shower. While in the shower the Lord said to me **“Go back and look when the email was sent.”** After the shower I looked again at the email. It was sent exactly the same time as the team had prayed for me. Since then three other clients have asked to start training with me.

Praise God for a miracle
